

LEARNING ENGLISH IS AWESOME...

FIFTH SPELLING BEE CONTEST
August the 25th, 2017

One learns by doing a thing; for
thought you think you know it, you
have no certainty until you try.
Sophocles

A day to never forget!

A big door is opened to explore the universe of learning that English language offers. It could be said that an unlimited supply of options are given to students and teachers in order to participate in a new way of improving their English skills. Through Spelling Bee Contest, Consolata community has the possibility of sharing and interacting by the use of a foreign language.

To carry out Spelling Bee Contest, there were invited two important and recognized judges who represent Oxford and Cambridge companies; they were Mr. Mauricio López and Mr. Andrés Cifuentes. They rated students' participation in each round of the contest accompanied by Consolata English Team.

The contest was organized in different categories by cycles and levels. There were categories for students of first, second, third, fourth and fifth grades, elementary I, II & III, Pre-intermediate 9th, 10th, 11th, I, II & III, Intermediate 9th, 10th and Upper-intermediate 11th.

Spelling Bee is a special contest for me. I like to represent my category in activities proposed there.

I was so nervous to participate, but I could remember years before when I also participated and everything went out well.

I really love spelling in English, I can exchange knowledge with my school partners.

Alejandra Fernández
Pre-Intermediate III

Spelling Bee Contest is exciting for me. We learn many new words, their pronunciation, meaning, spelling and their use in different examples.

Students of each grade in the school participated. That's awesome!

I liked judges' participation too, they were professional people, they were fair and honest in their decisions.

Katherine Blanco
Pre-Intermediate III

Sometimes, we don't pay attention to our mistakes when we're writing or speaking; that's why spelling is a support to improve our communication.

On the other hand, I want to say that I liked the judges invited; they were honest and strict with students and teachers from other subjects who participated. I really enjoyed the contest!

Veronica Roncancio
Pre-Intermediate III

Spelling Bee is an activity that improves our English level. I could learn from the judges because they were professionals and they knew a lot of English.

Students and teachers who participated in the contest were responsible and brave, it's not easy to be in front all people in the school.

In general, the contest is an organized and interesting activity that motivates students to learn.

Gabriela Cutiva
Pre-Intermediate III

A new way of learning English!

With Spelling Bee English is dynamic; that's why students actively participated in the contest.

It makes us learn new words and expressions in an original way; also, it joins the community, because we have to support each other.

Camila Grisales
Pre-Intermediate III

Spelling Bee Contest is an interesting and wonderful activity in our school. It's a great competition that joins students and teachers.

Prizes are useful for students and teachers who participate.

But, I also think it would be better to make more rounds because there were many words in the preparation list and in the contest there were asked few words to participants.

Camila Rojas
Pre-Intermediate III

English Team is proud of teachers from different subjects who participated in the contest.

They showed students, everything is possible when effort comes first.

We thank teachers of Consolata School because of their wonderful collaboration and participation.

They did their best!
